Soap
(for the rubber when the oil is not enough)

tvål (för gummit när oljan inte räcker till) /
såpe (for gummien når oljen ikke er nok) /
sæbe (til gummiet når olien ikke er nok) /
zeep (voor het rubber wanneer
de olie niet voldoende is) /
Seife (für den Gummi, wenn das Öl nicht ausreicht) /
saippua (kumille, kun öljy ei riitä)

IMPORTANT: Read the entire instruction before starting the assembly. Strictly follow all the instructions provided in this manual and carry out all of the stages of the installation process in the specified order. Failure to comply with these rules may lead to incorrect fitting of the decorative laths and the occurrence of visual defects. The warranty certificate is void if it is found that damage of the decorative laths has been caused by incorrect installation. The base on which the product is to be installed must be flat and without significant differences in level. The product must be attached to the base. Note: Use lube for all screws to prevent them from breaking.

VIKTIGT: Läs hela instruktionen innan monteringen påbörjas. Följ strikt alla instruktioner i denna manual och utför alla steg i installationsprocessen i angiven ordning. Underlåtenhet att följa dessa regler kan leda till felaktig montering av de dekorativa ribborna och uppkomsten av visuella defekter. Garantibeviset är ogiltigt om det visar sig att skador på dekorlisterna har orsakats av felaktig installation. Underlaget som produkten ska installeras på måste vara plant och utan betydande nivåskillnader. Produkten måste fästas på basen. Obs: Använd smörjmedel på alla skruvar för att förhindra att de går sönder.

VIKTIG: Les hele instruksjonen før du starter monteringen. Følg nøye alle instruksjonene i denne håndboken og utfør alle stadier av installasjonsprosessen i spesifisert rekkefølge. Unnlattelse av å følge disse reglene kan føre til feil montering av dekorative lekter og forekomst av visuelle defekter. Garantibeviset er ugyldig dersom det viser seg at skade på dekorative lekter er forårsaket av feil installasjon. Underlaget som produktet skal monteres på skal være flatt og uten vesentlige nivåforskjeller. Produktet må festes til basen. Merk: Bruk smøremiddel på alle skruer for å forhindre at de knekker. Bemærk: Brug smøremiddel på alle skruer for at forhindre, at de knekker.

VIGTIGT: Læs hele vejledningen, inden monteringen påbegyndes. Følg nøje alle instruktionerne i denne manual og udfør alle stadier af installationsprocessen i den specificerede rækkefølge. Manglende overholdelse af disse regler kan føre til forkert montering af de dekorative lægter og forekomsten af visuelle defekter. Garantibeviset er ugyldigt, hvis det konstateres, at skader på de dekorative lægter er forårsaget af forkert montering. Underlaget, som produktet skal monteres på, skal være plant og uden væsentlige niveauforskelle. Produktet skal fastgøres til basen. Let op: Gebruik smeermiddel voor alle schroeven om te voorkomen dat ze breken.

BELANGRIJK: Lees de volledige instructie voordat u met de montage begint. Volg strikt alle instructies in deze handleiding en voer alle fasen van het installatieproces in de aangegeven volgorde uit. Het niet naleven van deze regels kan leiden tot een onjuiste plaatsing van de sierlatten en het optreden van visuele gebreken. Het garantiecertificaat vervalt indien blijkt dat schade aan de sierlatten is veroorzaakt door een onjuiste montage. De basis waarop het product wordt geïnstalleerd, moet vlak zijn en mag geen noemenswaardige niveauverschillen vertonen. Het product moet aan de basis worden bevestigd.

WICHTIG: Lesen Sie die gesamte Anleitung, bevor Sie mit der Montage beginnen. Befolgen Sie strikt alle Anweisungen in diesem Handbuch und führen Sie alle Schritte des Installationsprozesses in der angegebenen Reihenfolge durch. Die Nichtbeachtung dieser Regeln kann zu einer fehlerhaften Montage der Zierlatten und zum Auftreten optischer Mängel führen. Der Garantieschein erlischt, wenn sich herausstellt, dass die Beschädigung der Zierlatten auf eine unsachgemäße Montage zurückzuführen ist. Der Untergrund, auf dem das Produkt installiert werden soll, muss flach und ohne nennenswerte Höhenunterschiede sein. Das Produkt muss an der Basis befestigt werden. Hinweis: Verwenden Sie Schmiermittel für alle Schrauben, um ein Brechen zu verhindern.

TÄRKEÄÄ: Lue koko ohje ennen kokoonpanon aloittamista. Noudata tarkasti kaikkia tässä oppaassa annettuja ohjeita ja suorita kaikki asennusprosessin vaiheet määritetyssä järjestyksessä. Näiden sääntöjen noudattamatta jättäminen voi johtaa koristelistojen virheelliseen asennukseen ja visuaalisten vikojen syntymiseen. Takuutodistus raukeaa, jos todetaan, että koristelistat ovat vaurioituneet virheellisestä asennuksesta. Alustan, jolle tuote asennetaan, tulee olla tasainen ja ilman merkittäviä tasoeroja. Tuote on kiinnitettävä alustaan. Huom: Käytä voiteluainetta kaikissa ruuveissa, jotta ne eivät katkea.
